

FIRE IN A COLLIERY

Fierce Flames Raging in the Holden Mine.

SEVERAL MEN WERE OVERCOME

By the Stiffing Afterdamp and Were Nearly Rescued—Some of Them May Die.

SCRAMONT, Pa., Nov. 22.—Fierce flames are raging in the workings of the Holden colliery at Taylor five miles from this city, which are so located as to make it almost impossible their extinguishing in any other manner than by flooding the mine. Last night a force of workmen endeavored to reach the blazing subterranean furnace which is 2,000 feet from the bottom of the shaft, but the stifling afterdamp which filled the gangway quickly overcame them after they had passed the fresh air-ways and one by one the men fell into the gangway. Several of them realizing in time the awful danger into which they were treading, turned in time and succeeded in getting to a point where there was fresh air which enabled them to appreciate the condition of those overcome further on in the gangway. Quickly summoning a rescuing party and providing themselves with the necessary safeguards they returned into the gangway and fourteen prostrated miners were carried out unconscious and more dead than alive. Those in the most serious condition are David Davis, Benjamin Taylor, John Edmunds, Thomas Morgan and Jenkin Harris.

Again Overcome.
Then another force was formed under Superintendent Davies to try to get a hose upon the fire, in the gangway they went, but as they proceeded they too, were overcome by the poisonous vapors and it was only by having men trading behind them that they were enabled to have rescuers reach them. This time Superintendent Davies and Thomas Hughes, John Fern, Bryn O'Hara, John Jeffers, John McAndrew, Fred Tinney, William Dolan, David Evans, Michael Carroll, Henry Lindholt, William Goodman, inside Foreman Evans and Dan Jones were carried out so much overcome that the physicians had to work more than an hour upon them before they became conscious. Davies, Carroll, Fern, O'Hara and Jeffers are in a miserable condition and their recovery is doubtful. This is the first instance of suffocation in the mines of this section from this cause since 1883, when twelve men were killed at Micanoga, near Shik-shinny.

STREET CAR ACCIDENT.

One Person Killed and Several Injured in a Collision.

CLEVELAND, Nov. 22.—An electric motor car accident occurred at 6:30 o'clock last night. One man was fatally hurt and several persons slightly injured. A trail vehicle had just passed over the long up and high curbed viaduct, jumped the track while at full speed, and a motor car going in the opposite direction crashed into it. The entire side of the trailer was torn out and the passengers inside were thrown in profuse heaps. Charles H. Hussey, a mechanic, sustained a fractured skull and may die. Miss Lulu Fay was badly cut and bruised. Jacob E. Pihai, an engineer, was also cut and bruised and his clothing almost entirely stripped from his body. The motor men are in the habit of making up time by running at a high rate of speed over the viaduct, which is 3,000 feet long.

CLEW TO THE ROBBER.

The Man That Held Up Pollock Betrayed by His Revolver.

STOUT CITY, Ia., Nov. 22.—A clew to the identity of the man who robbed W. G. Pollock, the New York merchant, of \$7,000 worth of stones on a Sioux City and Pacific train about three weeks ago, has been found. In jumping from the train the robber dropped his revolver. From a record kept of the weapons it was found that the manufacturer's name was the H. and D. Folsom Arms company, No. 13 Murray street, New York. This company sold it to a man answering the robber's description a few days before the robbery. It is confidently believed that the robber is a man with Pollock's business methods, and that he followed him from New York. Pollock & Company are located at No. 8 Murray street, only a few doors from where the revolver was purchased.

BURNED IN THE NIGHT.

An Entire Family Cremated in Pennsylvania.

PITTSBURGH, Nov. 22.—The lives of one entire family were blotted out by fire early this morning. The dead are Hiram Danabauer, aged 45 years; Mrs. Danabauer, aged 43; their daughter, aged 10 years. The Danabauer family lived in Pleasant Valley, O'Hara township, just outside of the town of Sharpsburg. They had a greenhouse in the basement of their home, and placed a furnace in it yesterday. It is presumed that the furnace became overheated, setting fire to the wood work.

WILL BE ACQUITTED.

It Is Believed That Critchlow Will Not Be Found Guilty.

PITTSBURGH, Nov. 22.—Sylvester Critchlow was placed in the witness box in his own defense in the criminal court today. He stated that he was not on the grounds of the Carnegie company on the morning of July 8 last and that he did not fire a gun on that day. The prosecution had no questions to ask Critchlow and offered no evidence in rebuttal. Mrs. Critchlow was then sworn and testified that her husband was at home sleeping on the day of July 8.

Mr. Marshall for the defense then submitted a number of law points, one of which was that, where it is certain one or more persons commit a crime, but it is uncertain which, all must be acquitted. Attorney Patterson said

that the latter's point did not apply to the case on trial. Attorney Marshall followed Mr. Patterson with a long argument in support of his points. Judge Kennedy then announced that four hours would be given each side for argument before the jury. The closing addresses will be made by Erwin and Marshall for the defense and Burleigh and Robb for the prosecution. This afternoon John S. Robb, Esq., occupied one and one-half hours in his address to the jury for the commonwealth, and William Erwin of St. Paul made a two hour speech for the defense. Court adjourned at 4:30 o'clock until tomorrow morning, at which time Thomas M. Marshall, Esq., will make the closing argument for the defense and Clarence Burleigh for the prosecution. Judge Kennedy's charge will let the case go to the jury early in the afternoon, and a verdict may be expected before evening. It is now confidentially believed that the verdict will be one of acquittal.

TWO MEN KILLED.

Confusion of Orders Results Fatally on the Queen & Crescent.

NEW ORLEANS, Nov. 22.—A confusion of train orders occasioned a wreck on the Queen & Crescent road this afternoon at 1 o'clock. The wreck took place six miles south of Derby, a small station six miles north of New Orleans. The north bound freight crashed head on into the south bound passenger train and a disastrous shipwreck. A tramp was killed instantly and Charles Peck of Chattanooga, Tenn., was fatally injured. Manuel E. Crume of Livingston, Ala., had a leg broken; E. W. Holland, railway mail clerk, of this city, was badly but not fatally hurt, and Charles Scott of Chicago sustained a sprained ankle.

Kansas Is Gone Mad.

TOPEKA, Kan., Nov. 22.—Socialism is rampant in Kansas as a result of the alliance campaign of recent months. The first speech of the new dispensation was made six months ago at Caldwell, Kan., by a comparatively unknown man advocating the "bayonet and the torch." Three months later Mrs. Enery, a goddess whom western populists apparently worshiped, entered the state for a series of meetings. Her first speech was the one repeated all over the state, and it was followed by an unbounded enthusiasm. In that speech she predicted an uprising of the masses, who would cause the streets and lanes to flow with blood if their just demands were not granted. She said:

"I predict that the next administration at Washington will attempt to establish an empire founded upon wealth unjustly wrung from the people, and I now warn the potentates of the great conspiracy that we are prepared to burn, kill and destroy, and that our land will be bathed in the blood of our oppressors."

Tragedy at Houston.

HOUSTON, Tex., Nov. 22.—A double tragedy occurred about 6 o'clock this evening. For some months past W. S. Crosby has been jealous of his wife, accusing her of receiving too much attention from other men. This afternoon the couple quarreled and Crosby beat his wife over the head. She then took her two children, the eldest four years old, and sought refuge in a boarding house kept by Dr. Bassett. Crosby followed her and put a bullet in her heart, killing her. Crosby then blew the top of his head off.

Puget Sound Deluged.

SEATTLE, Wash., Nov. 22.—Reports of the storm throughout the state are still worse today, and the prospects are that rail communication will be abandoned for several days at least. A number of additional deaths are also reported, while the loss of property in the shape of farm buildings carried away and crops ruined will make a formidable item in the valleys of Duwamish, Green, Black, Stuck, Cedar and Payallup.

Opened the Reichstag.

BERLIN, Nov. 22.—Kaiser William opened the reichstag in person today. Nearly every member was in attendance and the closest attention was paid while his majesty delivered his address. The Kaiser looked remarkably well and spoke with a degree of intonation that seemed to indicate his feeling in regard to the coming struggle over the army bill. There was a general attendance of the imperial ministry, Chancellor Caprivi occupying the place of honor near the sovereign.

Found Dead in His Bed.

ST. LOUIS, Mo., Nov. 22.—W. J. Smythe, aged 24 years, single, and employed at Myers Bros' drug store, Fourth and Clark avenue, was found dead at his room at the Beaumont flats, Jefferson avenue and Olive street, about 2 o'clock this afternoon, by a porter. Mr. Smythe was the analytical chemist of fluids at Myers Bros' and it was his custom to arrive at his laboratory about 9 o'clock. He had saturated a handkerchief with chloroform.

Thrown Out of Work.

CHICAGO, Nov. 22.—Officers of the Illinois Steel company expect to shut down the steel mill at South Chicago December 15 for a period of two or three months. The mill employs about 3,500 men. Lack of orders, owing to the uncertainty over possible changes in the tariff, is given as the reason for closing the mill.

Wolf's Modest Demand.

CHICAGO, Nov. 22.—Broker Joseph Wolf today filed suit for \$100,000 against the Star Distilling company and the Crescent Distilling company of Pekin, Ill. Wolf claims to have brought about the sale of these distilleries to the trust a few days ago and demands the amount sued for his commission.

Murderer Foy Captured.

LAS VEGAS, N. M., Nov. 22.—Sheriff W. W. Worden and his deputy John Fryer, passed through here this morning on the Atchison road with Martin Foy of Saragosa Springs. Foy last May killed his mistress, Henrietta Wilson, August 10, Foy escaped from prison.

Will Allow Drawbacks.

WASHINGTON, Nov. 22.—The treasury department has decided a drawback is allowable on imported fulminate or mercury used in the manufacture of "electric exploders" and "blasting caps" when the same are exported.

Fire at Milwaukee.

MILWAUKEE, Nov. 22.—The establishment of the Milwaukee Bedding company and S. Karpen & Sons, upholsterers, was destroyed by fire this afternoon. The total loss is \$15,000, no insurance.

WAR AND ITS AIDS

Result of Tests Made By the Navy Department

WITH SHELLS AND EXPLOSIVES

High Explosives of Great Power Successfully Used as a Bursting Charge. Other Experiments.

WASHINGTON, Nov. 22.—Commodore Folger, chief of the bureau of ordnance of the navy department, in his annual report says that an appropriation of \$2,450,324 will be required by his bureau for the fiscal year ending June 30, 1894. The manufacture of brown powder for the navy has continued without any change in its requirements, and a sufficient quantity of it has been accepted to supply our ships. Marked progress has been made in the development of smokeless powder. During the past year 1,500 pounds of it have been made at the Newport torpedo station, and its test in various ways gave most gratifying results. The bureau expects soon to have under way the manufacture of this explosive upon a large scale, and then will issue it to service for all classes of fire guns.

Tests With Emulsions.

Tests with emulsions have continued. It has been conclusively demonstrated that an explosion of high order can be obtained from this material by the use of a simple fuse. It is perfectly safe to fire, not containing fulminate and requiring only a percussion cap to ignite it. The bureau has also developed a high explosive which may be utilized as the bursting charges of common shell, aerial torpedo, and submarine torpedoes, etc., on account of safety with which it may be handled, and the possibility of exploding it, without the use of fulminate of mercury. In the course of experiments with this explosive a number of rounds were fired from the four-inch rapid firing guns with the service velocity of upwards of 2,000 feet a second. Other experiments have shown that a common shell of the tubular manufacture, filled with this explosive, can be fired detonatively at will beyond. As a bursting charge for the same shell, when fired in the explosion chamber, the production of fragments was entirely satisfactory as regards number and size.

Settles the Discussion.

It is believed that these very successful experiments in the utilization of a high explosive of great power as a bursting charge for a shell propelled by gun powder with high velocities settle the long discussion in this country with regard to the relative merits of firing high explosives from air guns or from powder guns. It is appreciated, and this has likewise been noted abroad, that a decided revolution in the character of the armament vessels of naval vessels will be composed of two classes of guns; the first, as at present, of great length and power, using armor piercing projectiles; and the second, shorter guns, of very large bore and firing projectiles containing charges of powerful high explosives, the latter being intended for use against the unarmored portions of ships.

Test of Projectiles.

Tests of armor-piercing projectiles made during the year show that the Carpenter Steel company of Reading, Pa., has shown features equal to, if not superior, to the best of the Hotchkiss manufacture now far delivered in this country. One of the armor-piercing projectiles showed qualities of a very high character. The bureau will, in future contracts, demand more severe reception tests than is required for armor-piercing projectiles. The manufacture of armor-piercing shells for the three pounder and six pounder rapid-firing guns appears finally to have been established on a satisfactory basis. The bureau's requirements for these shells are very severe, since they must not only pass through three-inch and four-inch wrought iron plates respectively without distortion or cracks, but must also, in being buried, break into a large number of pieces. After long experiments the three companies engaged in their manufacture—the Hotchkiss Ordnance company, the Briggs Ordnance company and the Ames Ordnance company—have succeeded in overcoming these difficulties and are supplying shells of other requirements.

BERLIN-SAMOA TREATY.

It Is Expected to Make the Little Island Run Peaceably.

WASHINGTON, Nov. 22.—The negotiations to modify the Berlin-Samoa treaty, which have been in progress for some time at Washington, London and Berlin, are drawing to a close, and within a short time the result will be ready for ratification by the powers. The proposed changes are not radical, it is said, and important only as they are expected to lead to a more harmonious and satisfactory condition of things in Samoa. It would not be surprising if they included the recognizing of Matafa as king, instead of Malietoa. Projected company has been of passive rebellion against the constituted authority for some months, and now claims to have been elected king by three of the principalities of the country, under the former practice of the country, would make him the reigning monarch. The United States has always been ready to recognize Matafa, because of the former's vigorous assault upon the German forces, in which a number were killed. The United States friendship Alliance is now routing from Honolulu to protect American interests in Samoa in case of a rather improbable outbreak of any kind. The Alliance is an old boat that recently returned to this country from China to go out of commission. She will be replaced in a month or six weeks by the Ranger, which is now undergoing repairs after a season in Behring sea, at the Mare Island navy yard.

WHERE IS IVAN PETROFF?

The Russian Alaskan Expert Has Not Been Seen Since His Exposure.

WASHINGTON, D. C., Nov. 22.—Nothing has been heard of Ivan Petroff, the Russian Alaskan expert, who made false representations to the state department, which were embodied in the case of the government of the United States before the Bering sea arbitrators.

Must Stand Trial.

CINCINNATI, Ohio, Nov. 22.—The Smith heresy trial was resumed today, and a vote was taken upon Prof. Smith's objection to charge No. 1. A division of the house being called for, the result was found to be forty-three for sustaining the charge and nineteen against it. This is practically a test vote, and means that there will be a trial.

RUN ON THE BANK

People's Savings Bank at West Bay City

THROWN WITH DEPOSITORS

The Excitement Was Due to a False Rumor—Moshers' Stock of Long Green Quits Them.

WEST BAY CITY, Nov. 22.—The rumor got around this morning that the People's Savings bank had closed its doors and consequently at 11 o'clock the street was thronged by people who were anxious to get their money. The story was a fake. Everything was in a state of excitement and the bank was jammed with excited men and women. The bank is in a perfectly sound condition and is in better shape than ever. When the people began to pour in and the run on the bank started, Albert Moshers, the millinaire lumberman, was sent for, and after gathering all available cash he came to the scene at once, and standing behind the counter with a stack of bills a yard high beside him, he told the depositors that the bank would be open until 12 o'clock if necessary so as to get their money. This partly restored confidence, but the run is still on and thousands of dollars are being drawn. The credit of the Moshers is about a million and business men say that the bank is perfectly sound. It is not known how the rumor started.

ANNUAL APPROPRIATIONS.

The Estimates for the Coming Year Are All Submitted.

WASHINGTON, Nov. 22.—All the estimates compiled by the several legislative departments, with the exception of those of the interior department, are now in the hands of Secretary Foster of the treasury department. They are being printed for submission to congress when it meets in December. These estimates as far as they have been compiled by treasury officials show an increase of \$55,500,000 over the estimates for the same branches of the public service for the last fiscal year, which amounted to \$103,695,933. The estimates for the departments of justice, agriculture, labor and state show but slight increases amounting in all of them footed up to not more than \$1,500,000.

The legislative branch proper—the White House and the supreme court—last year and the judicial department are too small to be included. To carry on the military and naval establishments more money it is thought will be needed and combined these two departments ask an increase of about \$1,000,000. The estimate of about \$1,000,000 for the necessary establishment of new offices have been a tax on the receipts of the postoffice department and the expenditure it is estimated will exceed the receipts by five million dollars, an increase of nearly \$3,000,000.

Strangers Watching the U. S. Practice.

AN ARBOR, Mich., Nov. 22.—Yesterday afternoon the Rugby team did not play its usual practice game. A full hour was spent on signals, and Capt. Dygert and Coach Barbour have evolved some new passes which are dead sure to bother Cornell. Two strangers on the field attracted considerable attention. They watched Michigan's every move closely, and listened closely to all the signals. It is rumored that they are Cornell players. If so they will be hustled off the field pretty lively this afternoon.

TOOK 'EM FOR SPIES.

Two changes have been made in the team announced for Thursday. Bray will go in at left guard instead of left tackle, which place Decker will resume. He has been laid up until now with a badly sprained ankle. Thomas, previously listed for left guard, will go as "sub." Leonard, the promising left half back, received an ankle injury in the Oberlin game Saturday, and will have to quit for the season, thus losing to Michigan an important substitute.

DANFORTH AND SULLIVAN.

Their Cases Are Now Being Considered by Secretary Tracy.

WASHINGTON, Nov. 22.—Captain Lemley, judge advocate general of the navy, has submitted the court martial cases of Paymaster Sullivan and Assistant Engineer Danforth to Secretary Tracy for his action. Paymaster Sullivan was charged with negligence and Engineer Danforth with refusal to obey the orders of his superior officer. Both officers were found guilty as charged and their dismissal was recommended by the courts. Appeals to Secretary Tracy to mitigate the sentence in each case have been made and the secretary now has the matter under consideration. It is thought he will mitigate the sentence of Danforth to suspension from rank and pay.

Fred Douglass Is Hopeful.

WASHINGTON, Nov. 22.—Fred Douglass expresses the opinion that those persons who have apprehended a violent change for the worse, both in the general condition of the country and in that of the colored people, north and south, will find themselves agreeably surprised by the little difference which the change in administration will make. There will, he thinks, be made by the new administration no disastrous assault upon the enterprise, industry and welfare of the country. The democrats will, Mr. Douglass believes, endeavor to overhaul the tariff, and in some cases changes will be made, but the principle of protection will neither be ignored nor abandoned.

Increased Gold Balance.

WASHINGTON, Nov. 22.—The "ten days" statement issued at the treasury department today shows that the gold balance is \$123,601,457, a decrease of \$1,030,000 during this month, and more than \$2,000,000 since the first of the calendar year. Since the first of the fiscal year, however, by extra action the gold balance has been increased more than \$5,000,000. The receipts at New York for the past twenty days have not shown the falling off anticipated, but have actually increased over the corresponding period of last November \$500,000.

Visited by Treasurer Jordan.

WASHINGTON, Nov. 22.—Ex-United States Treasurer Jordan visited the treasury department today. He was treasurer under Mr. Cleveland, but it is understood that he does not desire to enter public life, certainly not in his old position.

Must Stand Trial.

CINCINNATI, Ohio, Nov. 22.—The Smith heresy trial was resumed today, and a vote was taken upon Prof. Smith's objection to charge No. 1. A division of the house being called for, the result was found to be forty-three for sustaining the charge and nineteen against it. This is practically a test vote, and means that there will be a trial.

QUICK AS A FLASH

Two Lives Suddenly Hurled Into Eternity

BY THE CRUEL LOCOMOTIVE

A Man and Woman Killed Last Night by a C. & W. M. Train at the Godfrey Street Crossing.

A road wagon containing an unknown man and woman was struck by a Chicago & West Michigan passenger engine at the crossing of Godfrey street and the railroad at 5:47 last evening, and both the occupants were killed. The two unfortunate persons were driving towards town from the south, and evidently did not hear the signals made them by the engineer of the train, for they did not slacken speed, but drove on to the track, where the wagon was struck broadside, cutting it loose from the horse, which, although it received a bad cut in the hip, was not otherwise injured. The train was immediately stopped and the trainmen hastened back and found the bodies of the man and woman lying a few feet from the place where the wagon was struck, and that of the woman about fifty feet. The man's right arm and left leg were broken, as was the woman's left leg. The man had been wearing a pipe, the stem of which had been driven down his throat.

They Were Out of Sight.

BAY CITY, Nov. 22.—Two residents of this city who have received considerable notoriety lately for disappearing suddenly, now claim that they are falsely accused. Eugene Hatley, treasurer of a Maccabee tent, has wired from Fulton, N. Y., that he will be here tomorrow; also that he had paid the last assessment to Treasurer Whalen of Flint. John E. Heatley of the Maccabee tent also claims innocence of any wrong-doing, and that he has not been out of town, but was sick, and remained at the friend's house. He was arrested Saturday night at the instance of James Reid, who claims that Heatley appropriated \$200 given him to apply on a mortgage.

Saw a Man Murdered.

CHARLEVOIX, Nov. 22.—Robert Tumoth, a farmer, saw a murder committed on the highway five miles south of here Sunday afternoon. He witnessed a fight between two strangers, saw one stab and kick his companion, and then throw his body into Twin lake near by. The murderer then took to the woods. Tumoth told his story at Ellsworth, and a searching party found blood in the snow and tracked the murderer until darkness stopped them. The body has not yet been found, but officers are continuing the search. Tumoth is a respectable young fellow and tells a straight story.

Muled Her Employer.

JACKSON, Nov. 22.—About two years ago, Edith Binning was employed at the residence of Jay A. Campbell as a domestic. For reasons of her own, she one day quit and went to the home of her parents, No. 410 Centre street. Immediately upon her departure Mrs. Campbell missed some valuable jewelry. Mrs. Campbell swore out a search warrant and searched the Binning residence but found nothing of his own. In a day or so Mrs. Campbell found the missing articles in a drawer of the dresser. Miss Binning began suit for damages, claiming \$2,000. This morning the jury awarded the plaintiff \$991.

Plays the Role of a Claim.

GRAND LEDGE, Nov. 22.—The inquest in the Lampman murder has been adjourned to December 1. Further investigation seems to point him unmistakably to the fact that John Butcher had accomplices in the crime, and that to that fact is due the incompleteness of his confession.

Since Reaching the Jail at Charlotte.

Butcher has played the role of a claim. No one can get a word from him about the crime. He has probably received advice from the score of petty criminals with whom he keeps company there.

Sensation at Port Huron.

PORT HURON, Nov. 22.—Miss Ida Smith lies at the hospital in a critical condition. She tells the story of her betrayal by William Barnes, a well known married man of the town. In her effort to hide her shame she has traveled near to death's door. Both are well known and a sensation is the result. The officers are keeping a close watch of the affair.

Tuite's Shortage.

DETROIT, Nov. 22.—City Counselor Speed, as attorney for the city of Detroit, began an action against ex-Treasurer Thomas T. Tuite and his bondsmen, Hugh McMillan, Stephen B. Grummond, McPhillan B. Moore, Emory Wendell Thomas, Reed, Jr., and Thomas Reed, Jr., to recover the amount of Tuite's shortage, about \$12,000.

Binder Was a Saginaw Man.

SAGINAW, Nov. 22.—Binder, the Milwaukee man who killed his wife and himself, was a former resident here, being highly respected. He belongs to one of Saginaw's first families. His father, William Binder, Sr., was a pioneer of the Saginaw Strip and completely is prostrated by the terrible news.

Mr. Glasgow Stand Up.

Hudson, Nov. 22.—If a young man who registered at the Rodney House as John C. Glasgow of New York, and worked Hudson for three days soliciting aid for a Methodist church, mythically located in Ireland, Litchfield and Jonestown, is not a fraud, will he please stand up and explain himself?

Found the Bay City and Richards.

ALPENA, Nov. 22.—Harbor tug Ralph found the barges Richards and Bay City, lost by the large Fletcher last night, anchored at North Point. The Bay City is out two feet. The Richards has seven feet of water in her hold. They are loaded with 5,000 bushels of wheat.

Shoot at the Abernethys.

PORT HURON, Nov. 22.—Thomas Abernethy reports to the police that members of his family cannot leave the house at night without some person shooting at them. Different members have had narrow escapes. A young man, named and the police are looking for him.

Was Worth Three Millions.

KALAMAZOO, Nov. 22.—A telegram has been received from Kansas City announcing the death of A. L. Mason, formerly of Galesburg, the country, and well known here. He left an estate worth \$3,000,000.

Northerner Is Safe.

SALT RIVER, MARKS, Nov. 22.—The steamer Northerner, so long overdue, passed here last night. She was apparently all right, and did not show any signs of having experienced any very severe weather.

Death of a Pioneer.

BATTLE CREEK, Nov. 22.—Mrs. Michael Bailey, an early settler of this place, died yesterday afternoon of general debility at her residence on College street. She was the mother of ex-Mayor Bailey.

Fire at Algonac.

ALGONAC, Nov. 22.—The dwelling house of James Heylet, a farmer living near here, was totally destroyed by fire late last night. The loss is fully covered by insurance.

Died in Chicago.

SAGINAW, Nov. 22.—Word has just been received that Archie Brown, aged 23, well known here, where he used to live, has been killed in Chicago.

QUICK AS A FLASH

Two Lives Suddenly Hurled Into Eternity

BY THE CRUEL LOCOMOTIVE

A Man and Woman Killed Last Night by a C. & W. M. Train at the Godfrey Street Crossing.

A road wagon containing an unknown man and woman was struck by a Chicago & West Michigan passenger engine at the crossing of Godfrey street and the railroad at 5:47 last evening, and both the occupants were killed. The two unfortunate persons were driving towards town from the south, and evidently did not hear the signals made them by the engineer of the train, for they did not slacken speed, but drove on to the track, where the wagon was struck broadside, cutting it loose from the horse, which, although it received a bad cut in the hip, was not otherwise injured. The train was immediately stopped and the trainmen hastened back and found the bodies of the man and woman lying a few feet from the place where the wagon was struck, and that of the woman about fifty feet. The man's right arm and left leg were broken, as was the woman's left leg. The man had been wearing a pipe, the stem of which had been driven down his throat.

They Were Out of Sight.

BAY CITY, Nov. 22.—Two residents of this city who have received considerable notoriety lately for disappearing suddenly, now claim that they are falsely accused. Eugene Hatley, treasurer of a Maccabee tent, has wired from Fulton, N. Y., that he will be here tomorrow; also that he had paid the last assessment to Treasurer Whalen of Flint. John E. Heatley of the Maccabee tent also claims innocence of any wrong-doing, and that he has not been out of town, but was sick, and remained at the friend's house. He was arrested Saturday night at the instance of James Reid, who claims that Heatley appropriated \$200 given him to apply on a mortgage.

Saw a Man Murdered.

CHARLEVOIX, Nov. 22.—Robert Tumoth, a farmer, saw a murder committed on the highway five miles south of here Sunday afternoon. He witnessed a fight between two strangers, saw one stab and kick his companion,
